

## **J. Major Capital Projects**

This year marked tremendous progress toward completion of the “One Stop Student Center and Library” at the West Windsor Campus, providing new and renovated facilities that enable students to access most enrollment and advisement services in one convenient location.

A new two-story Reception Center now links the Student Center and Library and houses a security office and information desk. Renovated offices in the Student Center include Enrollment Services, Registration, Financial Aid, Bursar, Career Services, Student Activities, as well as offices for student government and clubs. A new second floor was added above the renovated Library, in space that was previously open, and now houses the spacious Learning Center, Testing Center, Bookstore and Special Services offices. Adjacent nearby short-term parking is a welcome convenience.

This project added 7,000 square feet to the previous structures, with total renovated space equaling 70,000 square feet. Additional projects completed include new roofing, new doors to buildings and a new elevator at the James Kerney campus. The master plan is expected to be completed by Spring 2010. In addition, the college has a continuous maintenance program to ensure the ongoing upkeep of facilities and grounds.
